

# PhD RESEARCH PROJECT UPDATE

December 3, 2018 - CBS Executive, Frederiksberg, Denmark

## ENERGY & TRANSPORT SUMMIT III

The Future of the Wind Value Chain with Focus on Shipping and Logistics

Photo source: Thomas Poulsen

### FOCUS OF THE DAY

The offshore wind turbines are getting bigger and the supply chain is globalizing. At the same time, the first offshore wind farms without government subsidies will soon be built and this puts pressure on costs. Nowhere are these changes felt more directly than within the area of logistics including transport on land, at sea, in the air, and at hub points like ports and warehouses.

### SUMMIT AGENDA

09:30	Registration and coffee
10:00-12:00	Conference opening, keynote speaker, and first panel discussion
12:00-12:45	Lunch
12:45-15:30	Update on the PhD research project and second panel discussion
15:30-	Conference closes and is followed by networking
