

# INVITATION

“Gå-hjem” meeting about global wind energy shipping and logistics”  
**March 17**, 2015 at **16:00** pm in Copenhagen

You are hereby invited to the third in a series of 7 “gå-hjem”/go home meetings over the coming years where the vantage point of the discussions will be shipping and logistics. During this meeting, the focus will be on the engineering, procurement, and construction (EPC) companies and their role within wind farm shipping and logistics. Specifically, the meeting will discuss how offshore wind farm construction landscape has changed since the early wind farms built in Denmark in the 1990s up until today’s much larger projects.

The meeting will also discuss how market leadership in the segment seems to be moving from Danish firms to especially firms in Holland, Belgium, and China. Another discussion topic will be whether the origin of a firm really matters in today’s environment with bids used for procurement.

**ORGANIZERS:** Per Aarsleff and Aalborg University Copenhagen

**WHERE:** Per Aarsleff A/S, Industriholmen 2  
2650 Hvidovre, Copenhagen,  
Denmark

**PARTICIPATION:** Free-of-charge, first-come-first-serve (maximum capacity:100 people)

**REGISTRATION:** Please register by sending an e-mail to Charlotte at:  
[clt@arsleff.com](mailto:clt@arsleff.com) in English with name, company name, email address, and phone number

## AGENDA

1. Opening and welcome by Per Aarsleff
2. Presentation from Per Aarsleff on the role of EPC companies within offshore wind shipping and logistics – past, present, and future.
3. Shipping / logistics roles and asset developments from Aalborg University research
4. Panel discussion about the role of small to medium sized enterprises in offshore wind
5. Questions about wind shipping and logistics from the audience to the expert panel

## EXPERT PANEL:
